

## CONTACT US EARLY

With the combined experience of nearly 100 years in the business of building decorating machinery and automation systems, Screen Tech / Acromark is the best solution for decorating and assembly projects, regardless of difficulty.

Screen Tech / Acromark works closely with companies that supply the inks, foils and transfers used in its decorating equipment. Screen Tech / Acromark supplies state-of-the-art UV cure systems for screen printing and all the requisite

tooling, such as fixtures, dies and screens, so that it can offer a truly turnkey system to clients. It also partners with firms that supply pad print, laser etching, impact markers and serializing units that can be incorporated into semi-automatic and fully automatic work cells.

Screen Tech / Acromark strives to be an extension of your company to design the best system to meet your product needs. It also stands behind what it does to ensure an industry guarantee of satisfaction.
